

Assignment:-7 Subject: Maths Class:-I Teacher:-Mrs. Paramjeet Kaur

Name:-_____ Class & Sec.:-_____ Roll No.:-_____ Date:-_____

Q1) Encircle the container which has more capacity to hold.

Q.2) Circle the unit (l/ml) you will measure these in.

Milk

Litre

Millilitre

Can

Litre

Millilitre

Pitcher

Litre

Millilitre

Jug

Litre

Millilitre

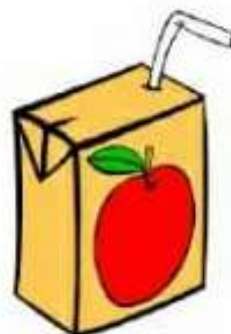

Large water bottle

Litre

Millilitre

Juice box

Litre

Millilitre

Q.3) Fill in the blanks.

1. Meter (m) and Centimeter (m) are the units for measuring length.
2. Long lengths are measured in meter.
3. Short lengths are measured in centimeter.
4. 1 m= 100 cm
5. To measure long distances we use a unit called Kilometre(km)
6. To weigh things, we use the units the units Kilogram (kg) and gram (g).
7. Capacity is how much liquid a container can hold.
8. To measure capacity, we use the units litre (l) and milliliter(ml).
9. To measure larger amounts of a liquid, we use litre.
