

Assignment 5 Class V Subject.. Social Studies Teacher... Mrs Monika Sachdeva
Name..... Roll no..... Class & Section..... Date....

Chapter- 7 THE LAND OF SNOW

C. Answer the following questions: (Q3-Q5)

Q.3 What is the effect of the climate on vegetation of Greenland?

ANS. As it is very cold in Greenland, no crops can grow here. Mosses, lichens, grasses and bushes grow in the summer season. There are no forests in Greenland.

Q.4 What kind of animals live in Greenland?

ANS. Only animals with thick furry coats or those which can withstand extreme cold can survive in Greenland. Musk Ox, polar bears, reindeers, whales and seals are some animals found in Greenland.

Q.5 Write a short note on igloos.

ANS. The Inuits live in igloos or snow houses in the winter season. These houses are made of large blocks of ice and are dome shaped. A hole is made in the centre of the dome to allow smoke and hot air to pass through. The floor is covered with skins and furs of animals.
