

# ASSIGNMENT-7

NAME:

CLASS: 6

DATE:

SUBJECT: ART & CRAFT

TEACHER NAME: Mrs. VINNY

Chapter  
03

## Nature Study

Nature study is a process of observing things in nature.

Nature study is the study of animals and plants, usually in their natural surroundings like leaf, flower, shells, insects, birds etc. Drawing from nature is an enjoyable way of learning basic drawing skills such as line, shading, proportion, contour, and composition.

There is great value of looking directly at the natural world rather than just reading about it or copy images. Nature provides us with an endless beautiful surroundings.

Nature itself is a great artist and teacher. It gives the artist much depth in studying different aspect of nature.

Look deep into nature and then you will understand everything better.

— Albert Einstein

*Flowers are the most delicate thing a artist can ever find.*

*The enchanting magic of colours, the enshrine of shades, the exceptional vividity that spell bounds an artist is indeed an mark over excellence !!*

**Draw the above flower. Use pencil colours or water colours.**
