- d) Mark I was a general- purpose electromechanical computer. ()
- e) In Abacus, the upper part is called Heaven. ()
- f) ENIAC was the first calculating machine. ()

Q3. Answer the following questions: -**a) Define a Folder.**

b) What is a File?

c) Write only one feature of MARK I.

d) State one difference between Pascaline and Napier's bones.

Q4. Write the full forms of the following:-

a) ENIAC _____

b) UNIVAC _____

c) EDVAC _____

d) DVD _____

Q5. Tick the correct answer:-

1. Name the key that is used to rename a file.

a) F2

b) F3

c) F5

2. Which action cannot be performed in an existing file or folder?

a) Rename

b) Create

c) Paste

3. In which machine, the input was given through punched cards?

a) Tabulating Machine

b) Pascaline

c) ENIAC

4. Which is the first mechanical calculating device?

a) Abacus

b) Pascaline

c) Napier's Mark I

Q6. Draw an abacus and label its parts:-

Worksheet 2Subject: EnglishClass: IV

Name: _____

Q1. Read the following passage and answer the questions that follow.

One of the greatest inventors of all times, Thomas Elva Edison was born in 1847 in a small town in Ohio, USA. His teachers thought he was a slow learner, so his mother taught him herself, inspiring his interest in science. In 1869, after moving to New York, he improved a machine called the “ticker. It was used for relaying information about the stock market. Edison invented many things that changed the world. Electric lighting, sound recording and an early form of moving pictures were among these. Perhaps Edison’s most important invention was electric light bulb. It took him thousands of experiments before he succeeded.

On the basis of your reading, answer the following questions.

1) Who was Thomas Elva Edison?

2) When and where was Edison born?
