Indian Economy $[1950-1990]$
On 15 th August 1947 , India gained. Freedom. The inst important. work in front of the leaders co independent India was to decide the type of economic system most us uitade for India; a system which would promote the welfare of all, rather than a fells
Meaning of Economic system:-
Economic system is defined las an arrangement bey which the central problems of an economy are solved. There are many a different forms of
economic system. The intel main
tapes of economic types of economic system are :

1. Capitalist Economy
2. Iscialist Economy
3. Mixed Economy
4. Mixed Economy.

An economy is an organisation of
economic activities which provider Economic activities which provides people with the means to work and lessen a living.

1. Capitalism:-

It is a system in which all basic problems of ant economy ie what, how and you whom to produce, are
solued us market forces i.e demand and suppln. All the factors of production are oumed iby peinate individudls. Competition is. the imain feateire af Whe ucoinomy: Individual profit acts as inicentive to woik. there is uno. ovenermment interference Eg:-
2. Socialism

It is a system in which vall the basic problems og can economy i.e. what, how and you whom to produce are solved by economic plamining or ithe govermment. In this econdmy, govermment plays a major vole. All, the yoctors of productiLare couened vaj, govermment.
LSocial ivelydre is the motive of Uruntioning of the govermment. planned economy us calso called cientrally
3. Mixced Economy:-

It is an economic ssystem in weriich vall unsic ior incentral brioblems of avivconomy lare isolved ley both government or unechavism or price unechaniom, i.e. the prces of idemand arhal supply.
कt is coecause in cthes leconving, there is voo-existence uo public and private sector pevermhent or central planning wathoring Dakes vecision woverall upecially
yor sublic sectors ushile price mechanisma. Ruerles un printe isector.
India adopted whe Mixed Sconomy:After the yreedom, veaders lof independent India (Ulke Tawahoulal Nentur) were cosifused with vregard to economic ssisterm, to be yollowed in India.

- sonie veaders unere in faccour of socialit econony.
However, in la democratic country. Wike India, complete dilition of priante owmership was mot possiblel as was posivele in case of youmer soviet (tinion).
- Capitailistic aconomic System blid not Wppei to gowaharlal Wehru out Yirst Puime winister, as wender this system, theye wourd be less Chances yor improvement in quality of life of imajority af people.
- As a result pixed economy (which combined the best veatreres of Woth Socialist and Capitalist Econonng ueas cadopted by the Iudian coononin. In this view, India would be a sociaist iseciety, with a strumg public vector, leset dalso with privato piopenty land idemocracy.

Meaning of PLANNING:
Economic plonning means plannedd uco-ordination and utilisution iof aunilable vesources in and uconomy to lachieve certain pre- ispecified sociabl cand econanit lobjectives in ua time bound peogrannme.
In 1950, Planning Commission uess to be set wh under the Chairmanship of TaWaharlal Nehru, the then ave Hhe virst Prime Minister of Independent

As per the Planning commission
©cconomic Planning umeans uttilisation of country' is resources cinto idifferent

The Goals of Five Year Plans
Due to limited resources, a choice has to un unmade in each plan about which iq the goals is to be given primary importance.
A plan should have some clearly specified goals, that are:-
(1) GROWTH.
(2) MQDERNISATION
(3) SELF-RELIANCE
(4) EQUITY
(1) GROWTH:-

It refers to increase in the country's capacity to prodisce the voitpit vo sods and services within the country

- It implies either a larger stock oof
productive capital. productive capital,
- It implies a larger size of
supporting services. like trap pera supporting services ike transport and banking, or an increase.
- Increase in the efficiency of productive
capital and veurices. D capital and veurices.
- A good Indicator of of economic growth, in the language of economics, is steady increase in the Gross Domestic Product [GDP].
The aDP is the market value of all the goods and services produced in the country during a year.
- Increase in GDP shows increased per head availability your all the individuals resulting
in rich and vries life in rich and varied life.
- The GDP of a country is derived. from the different sector io f the economy, industry the lagiculturbe sector, the industrial sector and the service sector. The contribution unmade bey each of these sectors makes up the structural composition if the economy.
- In some countries, growth in agriculture contributes imore' to the q. $\Delta P$ growth while in some other countries growth in the inanufactwring or service sector contributes more to GDP growth.
- In India, the share of agriculture in the GDP was umpire than 58 per cent-
was we would inspect for a poor as we uiould inspect for a poor Country. But by 1998 the snare of
the Lerivice. Sector visas 40.59 per. the iserive sector visas 40.59 per of lect. more than that of agriculture
or industry, like when ti. wow-yind in developed countries.
(2) MODERNISATION:

It refers to adoption of mew technology, mew unethas of production and changes in social outlook.
-. To increase the production of igoods and services the producers have ito adopt new technology.
For example, a former can increase the coutpect on the farm by using. new seed varieties instead of the
using the cold ones. using the cold cones.
sinsilarly, a factory can increase voutput bey using a new type of

- Modernisation also involves changes in social coutlook sch as the recognition that women should chave the same rights as lumen.
In la traditional society, women are supposed to remain at home while wren work.
A modern society makes the best wise of the talents of women in the work place - in banks, factories, shoots etc:- and. such a society in most occasions is also prosperiens.
(3) SELF-R ELIANCE:-
sef-Reliance means self- odependence cou veducing deiposiaremaivonicimpouts of those goods which can vee produced uithin the counduy itself.
- A mation can promote economic grouth and modernisation tay using its woun vesowrces wor bay using resources umported yrom cother mations.
- The first, yive wear plans igave importance to self- reliance which umeans civsiding imports of these
ipods and services netich could goods and services wehich could be produced in India litself.
- This policy was considered ca necessity in order to veduce cour dependence on yourign Countries, vespecially you yood.
- It vis understandable that ypeople who were vecently yredd irem tron yoreign lomination shouled give limpertance to self-reliance.
- Ferther lit was tio yeared that our udependence on imported yood usespplies, yoreign technolofy iand yoreign capital mai make India!s overeignty oulnerabl to yoreign intieffersce in ourpolicies
(4) Enquiry: Equity refers to reduction in unequality log income or meath, uplifting weaker sections of the society land a snore even distubution oof economic power.
can
* Economic A country hay have high grouch, the most modern technology developed in the country itself, and also have most oof its people Wiving in prop poverty.
It is important to insure that the benefits of economic prosperitter reach the poor sections as well instead of being ample enjoyed only
the rich the rich?
* Lo, in addition to Growth, umodomi and uself-cre valiance, equity sation is also important.
* Query Indian should be able to ne his or her basic uneeds such as food, in decent house, education and health care and inequality in the distribution of health should be
reduced.

AgRICULTURE:-

- At the time of independence, the land Henubre system upas characterised boy intermediates (like zamindars) who merely collected vent (ligan) from the actual tillers of the soil.
- The low productivity of the agricultural sector yours forced India to import yood from the United states of America.
- The agricultural vector accounted your the largsiare of viepreforce with approximately 75 per cent. iso agriclettural development was focused right from the First Five Year Plans.

& \text { Cor Problems) of Agriculture. }
\end{aligned}
$$

10 Low Productivity:-
Indian agricultural sector was known your its low productivity. Lack of knowuled uss responsible for istagnation in this sector.
2. Disuised Unwblament- It veefers to ea Wot in vilich more veople are venozged in work then are veally metta. There are wergh high incidents iof Dinouied unomplownent win the usore vduring 1950 and 1990.
3. Eigh debendency ion Raintall:- Due to poor
Govicultured Ctechnialues, farmers
 adelended vargely cord vaintall. Ther. vass iminimum igrousth uef this wector in the yearl that vecuius the Lease vainfall.
4. Dubsistence formina:- It is the practice of browina crops conly, for core's onen use without bany uspuplus for trade. There wos also very high incidents of subsistence yorming.
5 e. Out dated Technolon:- There were umany
 machines. Hartusting was generatly vdone umanually and meas cery itedious.
6. Conflits Between Temant wnd landlouds:Farmous uwere uften in part iof a cuitical conteract) what coousd them to their lamelouds. landords vesed to untract huse camount of unterest yfiom formens and ctrive mecesities.

Measures Policies to Promote Growth in Agricultural sector.

$\rightarrow$ Abolition of Intermediaries:-
Indian Gouernment took various isteps abolish intermedinries and to unake Hillers, the owners of land.
A The idea behind this istep uoas that ouenership uo uand would igive ioncentives to actual tillers to make improvemen (provided sufficient icapital fisas (made cavallable to them.

* The atoblition of intermediaries beicught 200 akh vemanels vinto udirect. contalet. with vthe government.
* The owenership rights agrantid Itemants upaud ithem Fthe minentive to uncrease outpeut uand. Ithis ccontributed to igrouth in agriculture.
- However, the goal of equisty was unot yully served vy abolition vof intlermediaries because of the following
reasons:-
(i) In some wreas, the former zamindars continued to ourn larao areas of uland ley ymaking ule of some uopholes in the legislation,
(ii) In some cases, tenants were evicted and zamindars claimed to Lee self - cultivators.
(iii) Even after getting the euenership oof land, the poorest of the agricultural Labourers did not benefit from hand reforms.
$\rightarrow$ LAND CEILING:-
land Ceiling refers to fixing the specified cumbit of eland. which could we covered by can individual.
- Beyond the specified limit, all Lands belonging to ca particular person would we trakem over ben cqouermment and will be alloted ito the landless cultivators and small farmers.
- The purpose of sand ceiling was to reduce the concentration of
wound vouncuship in yew hands. Laud ouenership in yew hands.
- Land ceiling helped to promote equity in the agricultural Lector.
However the land ceiling
Uloislation was Indlemped ab U legislation ias unchallenged Aby ore sign landlords. They delayed its supplementation. This delay. vine was used ley then to get the

Aand registered in the names of whese relatives, thereby escaping yfom the Uegislation.

Condusion:-land reforms were isuccessul in Kerala and west Bengal vecause uouermments of thiese sitates weue conmitted to ethe policy of uland reforms. Unfoutundtely selher utates adid undalihave rihtitresame uevel cof tontinue commitm and uast inequality in uland-ent holdings.

New Agricultoral istrategy: Green
Revolution in Revolution in India.

The new agricultural Irategy wos adopted ive in India aluring the Third, jear Plan, i.e. Uwring la 60 s . The traditional vagrisultural practices followed. Un India uvere uradually replaced iby modern techmofy and agricultural practices The aim of this istrategs leas to usise agricultisural puoduction and perpductivity. In selected vergioss of introduction of imederm inpits like Uerti (irers, veredit, umarketing yfocilities, etro.

Green Revolution

- at the time of windependence apout $75 \%$ of the countuy's population ures dependent on Dgricultore.
- India's agriculture widaly depender ion the imonsoon land on case lof shortage iof monsion, the youmers wad to yoce lot log Wroubles.
- Morrover, the puoductivity lin the agriculteral sector was verys dow adue to use of inetdated itiechnolog and absence cof vrequired infrastricotere
- Lets a result of intensive and continued refreets of imany laquicult iscientists, this istagnation - Ural in arpilulture viras permanently broken by the 'Green Revdution,
Green Reudution wrefers to thelarge increase in puodurtion of food Grains ulue to Uuse cof high uyilding variet, (HYUO seeds. Green Revolution in the sporctacular. advancement in the field of

HYV iseeds: Main Reason yor Agricultural Revolution:

Agricultural veevolution vocuréd pimarily due to the imirade lof indiw wonder seeds (high wielding varidy. of 14 V$\}$ of cof veeds F, ulfich varsed agpicultural byied per acre cto inveredide heights.

- These ueeds ucan ube used in those places where there lare adequate Usupities yor drainage and coater supply.
- is vompared to cother oudimary sesds, these veeds ineed heavy doses iof inemical Ifertilisers (4 to 10 fimes Umore (jertilizers to iget the vargest possitele ypuduction.
- so, to derive ubenefit ifrom HYV cseds, Indian youmers ineed to have,
- Reliable uricigation facilities; and
- Financial quesocicices (to purchses yertilizers \& pesticides.
Indian Economy experienced the 2 ishasess. of queen Reivolution in 2 phases:-
$1965-1975$
(1) In the Verst Phase CMid 60 s to
Mid $70 r$, the HYV weeds and the Mid 700 , the HYV weeds and their wese wess valtricted ito more affuent uttates (Wike pumiab. Andhren Bradest. Tamil Neádu. Lete.
Further, the wise of Hy V lieeds brimainly veenefitted ithe wheat growing veaions only.
(2) In the wecond Phase (Mid 705 to Mid 80s) the HYV technology uproad to a laroar unumber cou utates and veengited more variety of crops.
Important Gffects vef Green Reirduti
The upread of Gueen Reudution techmology unabled India to achieve usef- exufficiency in food sorains Inbia woss no lomger wat the omery vo enmenica, ination for the yood wererinements. vor the yood
(1) Attaining Marketable IUuplus:Green Ruplution wesulted ion Marketable surplus.
Marketable usuppus luefers ato ctorat part of sagricultural beroduce wnich is wold in ithe in inarfeet veythe
formers after Emeeting their olcen consumption vequirement.
- Growth in agricuttural coutpect Makes a defference whto to the Leconow conly inthen inorge proporition uf y market.
- Eoutumately, a grod propoution of urice and wineat prodelced ndwing (the iseen vevolution period woas sold by the youmers win the market.

2. Buffer (stock lof Food Grains. The arcen irevolution enabled the government to polocure sufficient amount cof yood grains to wevild a istock whick could be used in times of food shortage.
3. Benfitit to low-income groups.

As ularge upraportion of yoeed agrains was sold loy Ithe folvohers in the. mariket, their perces bodeclined vielateve to wther items of consumption.
The low-income groups, ufiospend a large percentage on otheir uncome ion food, cenesitber ifrom Uhis dedine im relature petces.

Risks involved Under Green Ruedotion:-
While the mation had immensely. wencited yrom the green rectolution, the Atechnologys involued was mot yree yrom aristes.
(i) Rise of Pest Attack:-

The HYV crops were more prone to attacke vey pests. sog there was a visk that imall sarmers wino adopted this itechnolbyy could lose ceverythings in a pert attack. Houcuers this visk wos considerably. reduced bey the wervices rendered by researid unstitutes established vey. ith
由overmment. yovermment.
(ii) Risk of Increase in Income Inequalities:There tis as risk, that costly inpuits (HYV iseeds, yertilizers, etc) Frequited under igreen verulution will increace the disforities betwen small and big
formerd since wonly, the big.
ifarmers vould affoud lfarmers coould affoud uthe vequied vimprots.
Howeyer, due cto vawourable uteps itateeln iby the gowermmeht, Gable vteps ta
add mot come true.

The apoermment loans at low interest to small informers so that they could uso have access to the needed inputs.
since, the small warmers Could obtain the required inputs the output on small yours equaled the output on large barms in the course of tine. as a vesult, the green erevelution benefitted the ismail las well as rich farmers.
Debate auer subsidies to Agriculture:subsidy. in content of agriculture. uncaps. (that the Q formers get inputs at prices lower than the imprest price.

- During the initial phase of Green Revolution new temmologe was looted upon las beings risky by the formers.
O So, lit was necessary for the Gowermm Ho rant subsidies tho provide an int HYCentive tech or argos.
- However, with the passage of timon. there has been debate bused the luge amount of subsidies granted leif the igovernnkent.

Subsidues- provided by bial asistance or helt
Thew-1- yor produdtion and consumption of certain type iof iovodse seris

* Economists in Favour of isubsidies:-

1- The govermment ishould continue with Iagrecultural subsidies as yarming in India continues to ue a visky business.

2-Majority cof the Yarmers are veryf foor and ithen wrill mot ve able to afford the vequired imputs without the usubsidies.

3 - Eliminating unbsidies will increase the income inepuality vetween wich land poor farmers land wiill violate the ultimate goal of equity.
In ibriff, Usubsidies in India are inecessary yor poore and andill faumere: to lemable them to matee wuse of moderm agricuttwral techmiques Necessarey steps whould be taken to ensure Itrat conly the poor farmers enjoyn the benefits of culbsidie and wot the pertiser undustry and
ibig iformers. bigh formers.
Economists Against the Subidies:-

1. According ito some economists, subsidies ueoue urianted vou Lthe Government to providel can in incenture efor adoption-1
if the new $H 4 \mathrm{~V}$ itechnolog, bo, after the wide accelfance of technologey, isubsidies ishould be phased seset as their purpese has been serued.

2-isubsidies do not venelit the poor and umall formers (vtarget sroups) vas venelits io subetantial calmount of sublider bo to vertiliser industey I and prospercus wumers.
Therefore, there is mo icace for icontiming, with unbsidies af wit aces not teenefit the trarget creup wand it us a hugs berdern ton the powemment yimances.

INDUSTRIAL DEVELOPMENT.
Economists have found that poor unctions Economists have found if they have a good
can progress only is
industrial sector.
Industry provides employment, which is more stable than the employment in agriculture, it promotes modernisation and courrall prosperity.
Due to this reason, Five Hear Plans stressed a lot con the industrial development.
LAt the time of independence, the variety. of industries was very limited or nero The cotton textile and bott industries were mostly developed in India. There were two well-managed iron and steel firms: -one in Jamshedpur and the other in Kalkata. oo there was a strong mined to uncpand the industrial U bose with a variety of industries.
Role of Public sector in Industrial Development:-
(At the time of independence, the big question facing. the policy, makers veers to decide the vile af -government (public sector) land the private sector in industrial development.

There uses a meed for ca Leading. vale of the Public sector ane tho the Yollasing reasons:
(1) Shortage of Capital witch private Sector: Private lentreprenesus did mot have the capital to undertake investment in industrial ventures, required for the development of Indian economif.
At the time of independence, Tats and Birlas. mere the only well know Private entrepreneurs. Ls a result, Government had to make industrial imestment through Public sector Undertakings (osUS).
(2) lock of Incentive your private Sector:The Indian market was nat big. enough ito encourage private industrialists to undertake major projects, wen if they had capital to
wale us. Due to the limited size of the market, there uss low level of demand yer the industrial goods.
(3) Objective of Social coelpare:-

The objective of equity, and social wesfate co the Government could be achieved through dissect participation of the state in the process of industrialisation.

Is a result, state had complete control sever those industries, that were vital your the economy.
The policies of the private sector thad to be complementary to those to the public sector, with public visectorl leading the way.
Industrial Policy Resolution 1956:-
Industrial Policy is a comprehensive package of polly. Measures which covers uaribess issues connected with alifferent industrial enterprises of the usolontry.

- Industrial Policy is essential yore devising various procedures, principles, ovules and regulations for controlling industrial enterprises oof the country
- After the Industrial Policy, 1948 , Indian economy had to yare a series of economic and political changes which inesessitated the meed for a fresh industrial policy for the country.
Sol, on $30^{\text {th }}$ April 1956 , a second Industrial policy Resolution was adopted in India.
