Good Morning Students!

Chapter :-1(Word Problems)

Today we will go through examples, solved in your NCERT Book of Mathematics. Understand it carefully, and then write in your notebook.

Ex. 1) Population of Sundernagar was 2,35,471 in the year 1991. In the year 2001 it was found to be increased by 72,958. What was the population of the city in 2001?

Solution : Population of the city in 2001 ,

= Population of the city in 1991+ Increase in population

$$=2,35,471+ 72,958$$

Now, 2, 35,471

$$+ \quad 72,958$$

$$\underline{\underline{3,08,429}}$$

Answer: Population of the city in 2001 was 308,429

Example 2: In one state, the number of bicycles sold in the year 2002-2003 was 7,43 600. In the year 2003 - 2004, the number of bicycles sold was 8,00 100. In which year were more bicycles sold? and how many more?

Solution:- More bicycles were sold in the year 2003-2004 than in 2002-2003 therefore

3) In an election the successful candidate registered 5,77, 500 votes and his nearest rival secured 3 48,700 votes. By what margin did the successful candidates win the election?

4) misti bookstore sold books worth rs. 2,85,891 in the first week of June and books worth rs. 4,00,768 in the second week of the month. How much was the sale for the month of June?

(Answers will be given later at 12:30 P.M.).
