IMPORTANCE OF TREE PLANTATION

By Monika

Trees are important for us. They give us number of things. They purify air without which we cannot imagine to exist. The cutting of the trees results in the heating of the earth’s surface which has serious consequences.

We can save our life from dangerous consequences by planting more and more trees. It is also necessary to spread awareness among common people. Today man has thoughtlessly cut down forests for his selfish needs. This has resulted in the imbalance of environment. Lack of trees makes air impure. Hence it is high time to understand the worth of our forests and avoid cutting the trees. Without trees life is not possible.

People should be motivated to realise the importance of tree plantation. Let us take a pledge to plant trees in more and more numbers and promote others for this noble cause.

SAMPLE 2

Ques- Education is a boon to humanity. It builds up our confidence. But it is shocking that in our country a lot of children don’t get even basic education. Prepare an article on the topic- “ Need of Education for all”. You are Rahul.

NEED OF EDUCATION FOR ALL

By Rahul

Education brings perfection. It is education that differentiates a literate man from an illiterate one. Hence, it is necessary to educate one and all.

Only a man with good education can be able to face any competition. But it is unfortunate that thousands of our small children remain deprived of even basic education. They are seen engaged in various activities such as rag picking, collecting garbage from households, doing work as domestic helps. These children don't know what is meant by going to school. These children should be saved at all costs. They must be sent to school so that they may get atleast basic education.

Awareness should be spread in the country in order to highlight the importance of education for all. Each and every boy and girl is entitled to go to school.
